PROFESSIONAL SUMMARY

Senior Data Scientist and AI Consultant with **15+ years of experience** in data analytics, machine learning, econometrics, and AI-driven decision systems. Proven track record of delivering **end-to-end data and AI solutions** for international clients across energy, mining, industry, telecommunications, and digital services. Expert in transforming complex business problems into **scalable, production-ready analytical and predictive models**. Strong ability to operate at both **strategic advisory and hands-on technical levels** in multicultural environments.

CORE COMPETENCIES

Data Science & Artificial Intelligence

- Machine Learning (Supervised & Unsupervised)
- Deep Learning
- Predictive & Prescriptive Analytics
- Anomaly & Fraud Detection
- Time Series Analysis & Forecasting
- Statistical Modeling & Econometrics

NLP & Generative AI

- Natural Language Processing (NLP)
- Text Classification & Sentiment Analysis
- Information Extraction
- Large Language Models (LLMs)
- AI Agents & Conversational Systems

Tools & Technologies

- **Programming:** Python, SQL, R
- **ML/AI Libraries:** Scikit-learn, TensorFlow, PyTorch, SpaCy, NLTK
- **Analytics Tools:** Excel (Advanced), Stata, SPSS, MATLAB, MAPL
- **Data Visualization:** Power BI, Tableau, Looker
- **Data Engineering & Deployment:** APIs, ETL Pipelines, Automation, AI Integration

Business & Finance

- Financial Analysis & Forecasting
- KPI Design & Executive Reporting
- ROI, CAPEX & Performance Monitoring

PROFESSIONAL EXPERIENCE

Senior Data Scientist / Data Analyst – Freelance Consultant

International (Remote) | 2019 – Present

- Led **end-to-end Data Science and AI projects** for international clients across Europe, the USA, and the Middle East.
- Designed and deployed **predictive, classification, scoring, and time-series models** to support operational and strategic decision-making.
- Built automated **data pipelines and analytical workflows** using Python, SQL, and R.
- Implemented **NLP and Generative AI solutions**, including text analytics, recommendation engines, and AI agents.
- Developed **executive dashboards** and decision-support tools using Power BI, Tableau, and Looker.
- Advised senior stakeholders on **data-driven strategy**, model interpretation, and AI adoption.

Managing Partner – Feno Boat Design

Madagascar | 2021 – Present

- Directed strategic, financial, and operational activities of a naval design firm.
- Implemented **data-driven performance tracking** for budgets, timelines, and profitability.
- Supervised cross-functional technical teams and external partners.
- Led international business development and B2B partnership negotiations.

Data Analyst – Freelance

Madagascar / International | 2016 – Present

- Collected, cleaned, and structured **large, complex datasets** (financial, operational, survey data).
- Conducted **descriptive and inferential statistical analyses** to support executive decision-making.
- Built econometric and multivariate models using Stata and SPSS.
- Developed quantitative simulations and analytical models using MATLAB and MAPL.
- Designed **automated dashboards and reporting tools** using advanced Excel (VBA, Power Query).

SELECTED DATA & AI PROJECTS

Mining & Environmental Analytics

- AI-based **mining site mapping** using satellite imagery and computer vision.
- Spectral analysis for geological assessment and resource detection.
- Groundwater evaluation using geospatial and environmental data modeling.
- Fraud detection in mining operations through anomaly detection and predictive modeling.

Digital, NLP & Automation

- Design and implementation of **enterprise AI architectures**, including centralized data platforms and automated ETL pipelines.

- Automated YouTube content extraction and transformation pipelines for social media platforms.
- Customer review analysis using NLP and sentiment analysis.
- Development of an **offline-capable medical chatbot**.
- Integration of AI agents into websites for customer support and technical assistance.

EDUCATION

- **Master 1 – Data Science & Artificial Intelligence**, INSI Antananarivo (2024 – 2025)
- **Master 2 – Management Sciences & Economics**, HECMMA Antananarivo (2003 – 2008)

LANGUAGES

- French: Native
- English: Professional / Fluent (C1)
- Malagasy: Native

INTERNATIONAL AVAILABILITY

Available for **senior consulting missions, long-term contracts, or freelance engagements** in Europe, the United States, and the Middle East (GCC), within high-impact and data-driven environments.
